

Curriculum Coordinator Payment Guide

This overview explains how Curriculum Coordinators are paid for work at Axiom Education. This is for prospective candidates before you apply, and if you receive an offer, the formal contract will set out the full terms.

How Jobs Are Priced

Before you start, your team will assign each job a complexity band in writing. Each band reflects the scope of the respective brief.

Band	Typical Effort	Base Fee (on acceptance)
Light	~5-6 hours	\$180
Standard	~7-9 hours	\$270
Heavy	~10-12 hours	\$360
Massive	~14-16 hours	\$480

When You Get Paid

You get paid when the worksheet is marked as “Accepted” (including acceptance with minor polish notes). Work is reviewed against a quality rubric that is designed to be as objective as possible.

Bonuses and Adjustments

- First-pass Bonus (+12%): your first submission is accepted without a revision round.
- Excellence Bonus (+\$60): accepted work that clearly exceeds the pass standard.
- Revision Adjustment (-8%): acceptance only after two or more revision rounds.

Your band is also multiplied by your craft level (see below).

Example: Standard band (\$270) at Foundation level

Path	Accepted after one revision round	First-pass acceptance	First-pass + excellence
Pay	\$270	\$302	\$362

Craft Ladder

Your rate multiplier is based on recent accepted quality (your last 6 worksheets).

Level	Multiplier	How you get there
Foundation	1.00x	Starting level for new coordinators
Advanced	1.10x	First-pass rate at least 60%, and at most 25% of jobs need two or more revision rounds
Mastery	1.22x	First-pass rate of at least 70%, and excellence on at least 30% of jobs

Fixes vs Scope Changes

- Issues against the brief or quality standard that require a revision round are fixed by you without extra pay.
- If the brief was wrong or Axiom changes requirements mid-job, that extra work is paid separately once agreed in writing.

This guide is a general overview for applicants. Formal payment terms are provided in the contract with any offer.
